

BPR AND POPS DECLARATION
(BIOCIDAL PRODUCTS AND PERSISTENT ORGANIC POLLUTANTS)

Anchor Harvey certifies that, to the best of its knowledge, its products and manufacturing operations comply with EU Regulation (EU) No. 528/2012 (“BPR”) and EU Regulation (EU) 2019/1021 (“POPs Regulation”).

This Declaration is based on information reasonably obtainable through normal business practices, including supplier declarations, Safety Data Sheets, and internal knowledge of Anchor Harvey’s manufacturing processes.

Anchor Harvey does not intentionally use biocidal products in manufacturing other than standard industrial cleaners or lubricants that may be authorized under the BPR and does not apply biocidal treatments or supply treated articles requiring authorization or labeling.

Anchor Harvey does not intentionally use substances restricted under the POPs Regulation, including PFOS, PFOA, PFHxS, PCBs, HBCDD, or short-chain chlorinated paraffins, and has no knowledge that persistent organic pollutants are present in the materials it uses.

Anchor Harvey believes the above statements are accurate and will update this Declaration if material changes occur in supplier information, its processes, or applicable regulatory requirements.
