

**TSCA DECLARATION**  
(TOXIC SUBSTANCES CONTROL ACT)

Anchor Harvey certifies that, to the best of its knowledge, its products and manufacturing operations comply with the applicable requirements of the Toxic Substances Control Act (“TSCA”), 15 U.S.C. § 2601 et seq., and the regulations administered by the U.S. Environmental Protection Agency.

In preparing this Declaration, Anchor Harvey has reviewed information reasonably obtainable through normal business practices, including supplier declarations, Safety Data Sheets, and internal knowledge of its manufacturing processes.

Based on this information, Anchor Harvey confirms:

- All substances used in its operations are either listed on the TSCA Chemical Substance Inventory or are otherwise exempt from Inventory requirements.
- Anchor Harvey does not intentionally use chemical substances that are prohibited or restricted under TSCA, including those subject to risk management rules under TSCA Section 6.
- Anchor Harvey does not import or export chemical substances, mixtures, or regulated articles that would require import certification under TSCA Section 13 or export notification under TSCA Section 12(b).

Anchor Harvey believes, to the best of its knowledge, that the above statements are accurate and will revise this Declaration if there are material changes in supplier information, its processes, or applicable TSCA regulatory requirements.
